HARVESTED - STAND:	Oct 6 130.1 /A

TEST COMMENTS:

This plot was planted into no-till conditions with a cover crop of Rye. Planting conditions were very good, with excellent emergence. The plot was well-drained, which alleviated stress from a few heavy June/July rains. Some varieties showed signs of damage from an early September frost, with some top pods having very small greenish colored beans. The plot average was right in line with what Kent said the surrounding field was yielding.
